

By becoming a member of Yourope, those involved in the Health & Safety of an event or festival can openly discuss their event's issues in a conducive environment.

Through sharing knowledge and experience, those responsible for Health & Safety at events may find resolutions for both simple and complex matters.

The YES group is a collection of like-minded people wishing to share in activities and support each other with staging safe events.

The YES Group is a subsidiary of Yourope

THE AIMS OF THE YES GROUP

- To help make events safer
- To share good practice
- To encourage networking between Festivals & events
- To promote seminars
- To promote education and training
- To create a Europe wide integration of all aspects of events where possible

The Yourope Event Safety Group (YES Group) was formed when Yourope took over the delivery of Health and safety Seminars from the International Live Music Conference Safety Focus Group (ILMCSFG)

Following the Roskilde disaster in 2000, a group was formed to work with festivals across Europe to develop safer events and to try and instigate projects and research which would result in new ideas and innovations in health, safety and crowd management across Europe.

With the YES Group, a focused development of education across Europe was created and through a series of seminars, a European dialogue, network, and way of sharing knowledge has developed and allowed good practice to be communicated.

DID YOU KNOW...

The YES Group has been involved in research, including the development of a pressure suit to identify conditions in the front of stage area.

The YES Group have been fundamentally involved in the creation of a series of academic modules at University level.

The YES Group is part of Yourope and as such Yourope members receive discounts for attending the YES Group seminars and Eurosonic-Noorderslag as well as other events.

The YES Group have held panels at many events including Eurosonic-Noorderslag, MaMa, the Reeperbahn Festival, the ILMC informing and supporting people in their quest for safer events.

The YES Group also support festivals and events by creating lectures, short programmes, giving advice and information.

“The YES Group has enabled us to build a network of contacts with other events and festivals across the whole of Europe.”

(EXIT Festival, Serbia)

YES GROUP EVENTS

Two YES Group seminars are held each year:

A closed seminar (for Yourope Members only) and an open seminar for others who work in the events and festivals industry.
